## Autumn 2012 Newsletter

Center for Social Science  
Computation and Research

# TABLE OF CONTENTS

From the Director ..... 1  
From the Archivist ..... 2  
Class Schedule ..... 3  
Class Descriptions ..... 4-5

## CONSULTANTS

Mike Babb, Geography  
Colin Beam, Psychology  
Angela Capoccia, Economics  
Eric Hamilton, Education  
Shin Lee, Communications  
Stephanie Lee, Sociology  
Jeffrey Mathias, Social Work  
Kristan Seibel, Political Science  
Val Petrova, Jackson School

## ADMINISTRATIVE STAFF

Fred Nick, Director  
Kathy Davis, Fiscal Specialist  
Tina Tian, Research Data Analyst/Archivist  
Jeff Rud, LAN Manager  
Dixielynn Gleason, Publishing Consultant

## AUTUMN HOURS

### COMPUTER ROOMS

Monday through Thursday: 8:00am—9:00pm  
Friday 8:00am—5:00pm  
We are closed on Saturday and Sunday.

### ADMINISTRATIVE OFFICE

Monday through Friday: 8:00am—noon  
1:00pm—5:00pm

## ADDRESSES

Center for Social Science  
Computation & Research  
University of Washington  
110 Savery Hall Box 353345  
Seattle, Washington 98195 U.S.A.  
(206) 543-8110  
email: [csscr@u.washington.edu](mailto:csscr@u.washington.edu)  
<http://julius.csscr.washington.edu/>

The Center for Social Science Computation and Research (CSSCR) is an interdepartmental computer center in the College of Arts and Sciences at the University of Washington. CSSCR provides facilities and consulting support for computing activity related to teaching and research at the University. This newsletter is published quarterly, and if you have items you would like included, please contact Fred Nick at 543-8110, or [fred@u.washington.edu](mailto:fred@u.washington.edu). Thank you for reading this little tiny print. Some images copyright [www.clipart.com](http://www.clipart.com). Go look at this splendidiferous website!

# FROM THE DIRECTOR

CSSCR has spent the Summer updating, renewing and maintaining. We are ready for Autumn! And as always, please reserve your classroom times early to avoid conflicts. Drop by if you'd like a tour. Have a great Fall!

*Fred Nick*

## FROM THE ARCHIVIST

### NEW ONLINE DATA

After the JD 2: A Longitudinal Study of Careers in Transition, 2007-2008, United States  
Afrobarometer Round 4: The Quality of Democracy and Governance in Cape Verde, 2008  
Afrobarometer Round 4: The Quality of Democracy and Governance in Ghana, 2008  
Afrobarometer Round 4: The Quality of Democracy and Governance in Lesotho, 2008  
Afrobarometer Round 4: The Quality of Democracy and Governance in Mali, 2008  
Afrobarometer Round 4: The Quality of Democracy and Governance in Uganda, 2008  
Behavioral Risk Factor Surveillance System (BRFSS) Asthma Call-Back Survey, 2009  
County and City Data Books: 1952, 1956, 1962, 1967  
County and City Data Book [United States], 1983  
County and City Data Book [United States], 1988  
County Longitudinal Template, 1840-1990  
County-Specific Net Migration Estimates, 1980-1990 U.S.  
Evaluation of Children's Futures: Improving Health and Development Outcomes for Children in Trenton, New Jersey: Second Community Survey, 2008 and Third Community Survey, 2010  
Eurobarometer 74.3: The European Parliament, Energy Supply, Chemical Labeling, & Rare Diseases, Nov-Dec 2010  
National Asian American Survey, 2008  
Net Migration of Population by Age, Sex, & Race, 1950-1970  
State Tax Revolt Data Set, 1960-1992  
Surveys of Consumers, September 2003  
Surveys of Consumers, October 2003  
Surveys of Consumers, November 2003  
Surveys of Consumers, December 2003

## CSSCR CLASSES AUTUMN 2012

Here are the ways you can sign up for classes: Call 543-8110; stop by 110 Savery Hall during office hours; send e-mail to [ascocarp@u.washington.edu](mailto:ascocarp@u.washington.edu), including the class you wish to take, your name and department; or sign yourself up on our Web page. <http://julius.csscr.washington.edu/>

### **Data Management in Stata**

Instructor: Kristan Seibel  
Date: Monday, October 15  
Time: 11:30AM to 12:30PM  
Place: Savery 121

### **SPSS, Stata, R: Which Should You Use?**

Instructor: Stephanie Lee  
Date: Tuesday, October 16  
Time: 1:00PM to 2:00PM  
Place: Savery 121

### **Atlas.ti**

Instructor: Val Petrova  
Date: Friday, October 19  
Time: 3:00PM to 4:00PM  
Place: Savery 121

### **Building Academic Websites with Wordpress**

Instructor: Jeff Mathias  
Date: Friday, October 19  
Time: 11:00AM to NOON  
Place: Savery 117

### **Dissertation Publishing**

Instructor: Dixielynn Gleason  
Date: Tuesday, October 23  
Time: 9:30AM to 10:30AM  
Place: Savery 121

### **Introduction to RStudio**

Instructor: Colin Beam  
Date: Tuesday, October 23  
Time: 2:00PM to 3:00PM  
Place: Savery 121

### **Introduction to Eviews**

Instructor: Angela Capoccia  
Date: Friday, October 26  
Time: NOON to 1:00PM  
Place: Savery 121

### **Intermediate SAS**

Instructor: Tina Tian  
Date: Tuesday, November 6  
Time: 2:30PM to 3:30PM  
Place: Savery 121

### **Intermediate SPSS**

Instructor: Eric Hamilton  
Date: Tuesday, November 6  
Time: 1:00PM to 2:00PM  
Place: Savery 117

### **STF + FLOSS = Beer!**

Instructor: Jeff Rud  
Date: Wednesday, November 14  
Time: 1:00PM to 2:00PM  
Place: Savery 117

# CSSCR CLASSES AUTUMN 2012

CSSCR offers free, non-credit classes to UW faculty, students and staff. Computer classes are also offered by University Computing Services (543-5970), UW Extension (543-2300) and the College of Engineering Continuing Education (543-5539). To sign up for CSSCR classes, call 543-8110, or stop by 110 Savery during office hours, or use our Web page. <http://julius.csscr.washington.edu/>

## Data Management in Stata

Instructor: Kristan Seibel  
Date: Monday, October 15  
Time: 11:30AM to 12:30PM  
Place: Savery 121

This class will help researchers work with messy data problems in Stata. We will discuss common problems and solutions for merging data, reshaping files, working with panel data or nested data, string and numerical commands, create variable commands (egen commands), and date commands. Prior experience with Stata is helpful.

## SPSS, Stata, R: Which Should You Use?

This class provides a comparison of these three popular statistics programs and discussion of which is best for different types of research. No experience in any of the programs is necessary. (We can also talk a little about SAS, Excel, Matlab, SPlus, and Python if participants wish.)

Instructor: Stephanie Lee  
Date: Tuesday, October 16  
Time: 1:00PM to 2:00PM  
Place: Savery 121

## Qualitative Data Analysis Using Atlas.ti

In this class, we will briefly review criteria for choosing between different QDA software packages. Attendees will learn project management tips for working with the newest version of ATLAS.ti. The second half of the class will be a hands-on exercise: importing documents, coding, and visual analysis of qualitative data.

Instructor: Val Petrova  
Date: Friday, October 19  
Time: 3:00PM to 4:00PM  
Place: Savery 121

## Building Academic Websites with WordPress

WordPress.com is a surprisingly sophisticated tool that can be used to great effect quite easily, making it a perfect tool for academics to build professional websites. This course will familiarize beginning users with the creation, customization, and administration of blogs and static websites through WordPress.com.

Instructor: Jeff Mathias  
Date: Friday, October 19  
Time: 11:00AM to NOON  
Place: Savery 117

## Dissertation Publishing

This lecture will help you format your thesis/dissertation to conform with the UW Graduate School Style and Policy Guidelines for Theses and Dissertations.

Instructor: Dixielynn Gleason  
Date: Tuesday, October 23  
Time: 9:30AM to 10:30AM  
Place: Savery 121

## Introduction to RStudio

This class will teach you how to get started with R using the free text editor Rstudio. The course will cover the basic organization of R and Rstudio, where to find good help references, and how to begin a basic analysis. This class is ideal for users who have little or no experience with R.

Instructor: Colin Beam  
Date: Tuesday, October 23  
Time: 2:00PM to 3:00PM  
Place: Savery 121

CLASSES CONTINUED ON NEXT PAGE

## CLASSES CONTINUED FROM PREVIOUS PAGE

### Introduction to Eviews

This course provides an introduction to using the program Eviews for statistical analysis and simple data visualization. Topics covered include using Eviews, how to read and understand help files, linear regression, hypothesis testing, and simple time series analysis. No prior knowledge of Eviews is assumed.

Instructor: Angela Capoccia  
Date: Friday, October 26  
Time: NOON to 1:00PM  
Place: Savery 121

### Intermediate SAS

This class requires basic SAS experience. The topics include:

- Reading complex text data using column input,
- Simplifying programs with Arrays,
- Match merging SAS Data Sets for a more complex example, like non-matching data sets,
- Permanently storing formats in a SAS catalog, convert a SAS file to a SPSS file and vice versa,
- Overview of some procedures, e.g. GLM procedure, LOGISTIC procedure, REPORT procedure and TABULATE procedure.

Instructor: Tina Tian  
Date: Tuesday, November 6  
Time: 2:30PM to 3:30PM  
Place: Savery 121

### Intermediate SPSS

This seminar will begin with a review of SPSS usage (data input, selection, recoding, descriptive analysis, and GUI and Syntax usage), followed by examples of few common statistical analyses (ANOVA and regression). The second part of the class will focus on working with graphical output and presentation of findings in SPSS.

Instructor: Eric Hamilton  
Date: Tuesday, November 6  
Time: 1:00PM to 2:00PM  
Place: Savery 117

### STF + FLOSS = Beer!

College is expensive. It's not just the tuition price tag, either; between the cost of textbooks, course fees, housing, food, and the occasional "fun," the potential to bug out from stress is staggering. This stress, built up over time, can have adverse effects on your academic, professional, and social lives.

My solution: have a beer. You will pay for it by better leveraging a combination of STF-funded assets, free/libre/open source software solutions, and open-mic-night-money.

"STF + FLOSS = Beer!" will be a crash course on how to find and use University of Washington resources, bought and paid for by Students Like You, to further your academic and professional aims.

Coupled with a list of resources available free or at discount by virtue of your .edu email address, the session will conclude with a few cautious steps into the open source software pool.

As part of this class, students are strongly encouraged to bring along a .PDF copy of their current resume or CV; they will be hosting it online at the UW website they already own by the end of the class.

Instructor: Jeff Rud  
Date: Wednesday, November 14  
Time: 1:00PM to 2:00PM  
Place: Savery 117
