From the Director
A brisk winter hello to all,
This is going to be a very busy quarter at CSSCR.
All of our latest equipment and software is now
installed and in use. The number of classes using
the facilities this quarter is high. We are still seeing
people sign up for lab space at the last minute.
Please take time to reserve your lab needs at
CSSCR early so that you will not be squeezed out
by other classes. Also please come and talk to me
about your software needs for your classes long
before the class starts.
It is not easy to install software at the last minute.
Thanks.
Have a great quarter. As always, let us know if we
can help.

Fred Nick

Time: 1:30 PM to 2:30 PM  
Place: Savery 149

**Introduction to NVivo**

NVivo is an all-purpose qualitative data analysis system, which is designed to aid researchers in handling non-numerical unstructured data by supporting processes of indexing, searching and theorizing.

Instructor: Marcos Torres  
Date: Friday, February 25  
Time: 9:30 AM to 10:30 AM  
Place: Savery 149

**Introduction to Access**

This seminar will review the concept of relational databases and cover the basic features of Access including construction and use of tables, forms, queries, reports, and relationships. Topics covered include creating a table, naming and describing fields, and defining data types. We will work with records, view table data sheets, add, edit and save records, set primary keys, create relationships between tables, and print table records. We’ll look at Select queries by selecting tables and fields, and viewing data sets with specific query criteria, sorted order and excluded fields. Report creation is covered by creating, viewing and modifying reports using the Wizard.

Instructor: John Rigg  
Date: Thursday, February 24  
Time: 3:00 PM to 4:00 PM
